

1. Measure the length and width of each of the following objects to the nearest half inch.

a. piece of paper

length _____ in. width _____ in.

c. palm of your hand

length _____ in. width _____ in.

2. Amanda collects dobsonflies. Below are the lengths, in millimeters, for the flies in her collection.

95, 107, 119, 103, 102, 91, 115, 120, 111, 114, 115, 107, 110, 98, 112

a. Circle the stem-and-leaf plot below that represents this data.

Stems (100s and 10s)	9	10	11	12
Leaves (1s)	1 5 8 8 8	2 3 7 7	0 1 2 4 5 5 9	0

Stems (100s and 10s)	9	10	11	12
Leaves (1s)	1 5 8	2 3 7	0 1 2 4 5 9	0

Stems (100s and 10s)	9	10	11	12
Leaves (1s)	1 5 8 8 8	2 3 7 7	0 1 2 4 5 5 5	0

b. Find the following landmarks for the data.

Median: _____ Minimum: _____ Range: _____ Mode(s): _____

3. Measure $\angle P$ to the nearest degree.

$\angle P$ measures about _____.

4. Calculate the sale price.

Regular Price	Discount	Sale Price
\$12.00	25%	
\$7.99	25%	
\$80.00	40%	
\$19.99	25%
